March, 1898.

LIST OF SHELLS FROM GULF OF ADEN.

The present collection of shells was obtained in the Gulf of Aden. No special effort was made to secure one that was representative, as we had no time to devote to such purposes, and the following species cannot in any way be considered as illustrating the Conchology of this region, but only a few specimens gathered by the way.

The species have been determined by Dr. W. H. Dall of the National Museum, Washington, who very kindly consented to name them.

D. G. ELLIOT.

CONIDÆ.

CONUS RATTUS Hwass.
One specimen.

FASCIOLARIDÆ.

PERISTERIA NASSATULA Lam.
One specimen.

BUCCINIDÆ.

TRITONIDEA TUNIOSA Dill.
Thirty specimens.

NASSIDÆ.

NASSA CORONATA Lam.
Four specimens.

NASSA RAVIDA A. Ad.
One specimen.

NASSA CORNUTA A. Ad.
One specimen.

NASSA PPLICATA Bolt.
Four specimens.

NASSA sp.
Three specimens.

MURICIDÆ.

MUREX BREVICOLUS Sowb.

One specimen.

MUREX ANGULIFERUS Lam.

Four specimens.

OCINEBRA FUNICULATA Roc.

One specimen.
